

**SUPERFUND TECHNICAL & ENFORCEMENT BRANCH**  
**Week Ending July 4, 2008**  
**SITE ASSESSMENT TEAM**  
**WEEKLY ACTIVITY REPORT**

**SITE ASSESSMENT**

**Miscellaneous** – Continue to review site assessment reports and discuss recommendations with States. Answered calls from citizens and contractors on Superfund sites. **Turner x6666, Kendrick x2240, Cook x7436, Ofosu x3178**

**Anaconda Company Bluewater Uranium Mill Site, New Mexico** – Continued communication with NMED and Houston Lab on sampling activities in August at this site. NMED is requesting analysis of radionuclides and isotopes which is not available through the Houston Lab or the CLP. Discussed the analysis with USGS staff. **Turner x6666**

**GAO Investigation** – Continue to work on the remaining SSSRs for GAO. **Ofosu x3178, Cook x7436.**

**Southern Baths, Inc Site, Marion, Arkansas** – Received ESI sampling work plan for this site from ADEQ. Sampling is scheduled for the week of July 7. **Ofosu x3178**

**Leander ISD (Grandview Hills Elementary School), Leander, TX** – Received and reviewed the final health consult evaluating the vapor intrusion pathway at the new school developed by the TDSHS. Received and reviewed a sampling work plan from LISD for the collection of sub-slab soil vapor and indoor air at the new school. LISD was scheduled to collect these samples starting July 1, 2008 and completing the sampling on July 3, 2008. Sample results are estimated to be available next week for review. EPA developed and provided a letter to LISD regarding the June 26, 2008 meeting and LISD's proposed sub-slab soil vapor and indoor air sampling. **Kendrick x2240**

**Leo Miller Road Site, Taft, TX** – TCEQ continues its investigation into the release of red mud (a Class II Industrial Waste) along local area roadways. Met with the contractor regarding the development of the SI report. Provided a summary table of the preliminary results for the particulate analysis to individuals who requested those results. Was contacted by an attorney for one of the local citizens involved in litigation against Sherwin Alumina. The attorney was interested in using some of the preliminary results and possibly deposing EPA staff in support of the litigation. Notified EPA management and regional council regarding the request. **Kendrick x2240**

**GENERAL/ADMINISTRATIVE**

**Administrative Work** – Multiple travel arrangements, in-filing, ordering supplies, distribute mail, and other duties as required.  
Birdwell x6496

### TRAVEL/TRAINING NEXT WEEK

**Southern Baths, Inc. Marion, Arkansas** – Travel to site for sampling activities on July 7. **Ofosue x3178**
